

Do you have the best insurance coverage for your business?

Let us handle a review of your insurance policies.

Risk is inherent in the modern economic environment – an unavoidable consequence of running a business in the 21st Century. There are numerous methods a company can employ to protect themselves, for many organisations insurance invariably forms a substantial part of their risk management plans. If done properly, this can be a quick and conventional solution, however, if poorly structured, an insurance program can have disastrous consequences to a business.

Of **more than 90%** of all insurance program reviews undertaken by senior members of the InsureRight team, we have found that companies are needlessly paying inflated costs to their brokers and/or insurers.

In almost **95% of these cases** it was discovered that the companies' major policy wordings contained restrictive and/or onerous clauses and conditions that limited the actual extent of protection offered.

Our InsureRight team serves as your external risk management advocate, making sure that you have all the facts, information and knowledge necessary to make a fully informed and educated decision on how to best manage your insurance and risk management programs now and into the future.

We will provide you with the corporate governance comfort of knowing that your insurance has been independently audited, and coverage and costs have been optimised.

Our Services:

Management of Tender Process

We conduct a unique, comprehensive tender review process for the provision of insurance broking and risk management services, eliminating any potential complications or anti-competitive behaviour.

Evaluation of Service Level Agreement

We ensure your broker or insurance advisor provides you with a tailored service model in line with your individual needs rather a 'one size fits all' approach.

Technical Coverage Review

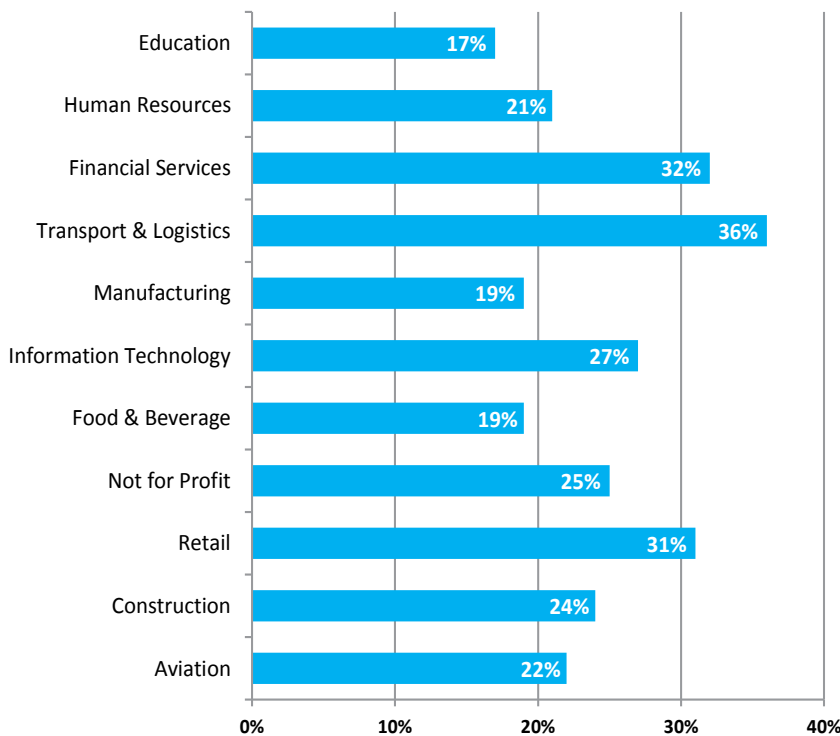

An in-depth examination of policy wordings that benchmark the actual levels of cover provided against your specific risk profile as well as alternative products available.

Risk Management, Technical Expertise and Ongoing Advice

We provide 24/7 assistance with any questions or concerns that may arise.

Average Annual Premium Savings by Industry from the InsureRight team

Our Risk Management & Insurance Division welcomes the opportunity of meeting with you to discuss your specific needs and demonstrating how we can benefit you.
